

Shopping Center Security Terrorism Awareness Training Program

DHS Course #: AWR-TBD-W
Training Level: Awareness

Hours: 5.0
Format: Online Training

Description

The *Shopping Center Security Terrorism Awareness Training Program* provides security personnel with increased awareness of the various facets of terrorism and criminal activity that could occur at a retail facility. During this course, participants will examine weapons that may be used in a terror attack and will be able to describe various attack tactics that may be used against a retail facility. Participants will also be able to assess potentially suspicious behavior and will be able to conduct surveillance at their facility. The course also describes proper response to terrorist or criminal incidents.

The course was developed by the International Council of Shopping Centers and the George Washington University Homeland Security Policy Institute in collaboration with the National Center for Biomedical Research and Training (NCBRT).

Primary Audience

The primary audience for this course includes retail facility security personnel and professional security officers.
