Biological Incidents Awareness: Ebola Virus Disease

Facility Requirements (Host-Provided)

- 30-person, environmentally controlled (heating, ventilation, and air conditioning) classroom including classroom-style seating with sufficient tabletop space for course manuals and note taking
- Audiovisual equipment: projection screen or projection area in classroom
- Internet access in classroom (preferred)
- Eight power outlets in the classroom for audiovisual components and computers used by instructional support personnel and participants during the course
- Instructor access the day before the course’s start date for classroom setup
- Adequate security to prevent having to reset the classroom on the course’s start date
- Adequate participant and instructor parking
